Let us  
Help You  
get your space back!

Tidy  
Abode & Co 

## FULLY ORGANISED SESSION

1. We will request some photos of the problem area(s)
2. From there, we will be able to estimate rough time needed (to the best of our abilities) We can form a quote for the client to review.
3. Schedule a walkthrough (eval consult) This should be scheduled a week prior to the organising sessions to allow for product planning and ordering
4. Book session dates
5. With the info obtained from the walkthrough, we create a product list for you (if needed)
6. We discuss products together prior to any purchasing
7. A downpayment covering product costs is placed (if client opts into personal shopper option)
8. Ordering and purchasing are completed (either by us or the client)
9. DAY OF ORGANISING SESSION

## PERSONAL SHOPPER

This Service is designed to aid the other services

This Service is where the Organiser heads out to the shops on behalf of the client to retrieve all of the products needed (if any) to complete the organisation process.

## EVALUATION CONSULT

With any booking 6 hours and over, we offer a 30-minute consultation where the Organiser and the Client discuss the Client's desired project and outcome. We also spend this time discussing possible products needed, such as Bins, Tubs, Baskets and other various organising tools.

## HANDS-OFF SOLUTION SESSION

A Hands-Off Session is an appointment conducted with the Client/s in the space they wish to organise. Advice is given regarding how to tackle the clutter, what products would help maintain it tidy, and lastly tips on how to make it last effortlessly on your own. This session is to discuss all that we would do if it were a hands-on appointment. The goal is to develop a plan and strategies for the Client to tackle this project effectively on their own and to ease some stress in the process. While no practical assistance is given during this session, we try to give the Client the confidence and motivation to get the space organised and beautiful again..

Visit Tidy Abode online at

to book your session!

## PRODUCT PLANNING

After the initial Evaluation Consult the Organiser will use the measurements taken to create a carefully selected Product Plan. This is where we will search across multiple shops and resources for innovative solutions to clutter and lack of systems. Each product is picked with budget and taste in mind Full quantities and detailed notes will be included. A quote incorporating everything will then be sent.
